

**REFUSAL FOR RIGHT OF ENTRY**

I have read this Refusal for Right of Entry, understand the risks, and refuse to give the City of Rockport, its affiliates, employees, agents, or contractors (collectively, the "City"), permission to inspect and, if necessary, replace the water service line at my property in the yard from the water main to the interior shutoff valve located on the Premises.

I understand that state and/or federal regulations may require my property be regularly notified regarding the potential unsafe conditions due to lead materials in my service line. I understand that appropriate disclosure may be required upon the sale, exchange, installment of land sale contract, assignment of beneficial interest, lease with an option to purchase, ground lease or assignment of ground lease of the property.

I also understand that updated state and/or federal regulations may list my property in a public database identifying lead service line locations.
